SPECIFIC TERMS AND CONDITIONS

Important: Before completing and signing the form, please read the General Terms and Conditions located in the rebate booklets or at alliantenergy.com/terms.

A. Multifamily is defined as three or more units in one building shell, three stories or less, on a single lot with common space.
B. If the builder or the property owner is to receive the entire rebate amount, their information should be listed as the Person or Company Receiving Rebate. If the builder is a Energy Efficiency Dealer, the mailing address for the rebate must match their Energy Efficiency Dealer address.
C. Rebates and/or bonus options may be designated to both a property owner and a builder, if the builder is a Energy Efficiency Dealer. If both parties are to be paid portions on the rebate, then the property owner should be listed as the Person or Company Receiving Rebate and the Builder's information should be entered on the Builder Release along with their Dealer ID number. The rebates going to the property owner and the builder should be indicated accordingly.
D. The property must receive either natural gas or electricity from Alliant Energy to be eligible to participate.
E. A federal tax ID number or social security number is required for processing any rebate, except if the tax status of recipient is residential. Under Builder Release, a federal tax ID number or social security number is required for processing any rebate unless the builder is already an Energy Efficiency Dealer and has supplied their Dealer ID.
F. New equipment eligible for the Multifamily New Home Construction rebate must be installed, reported on the Multifamily New Home Construction rebate claim form and submitted one time only. Alliant Energy will not pay rebates for new equipment submitted on other Alliant Energy rebate claim forms.
G. Builder must provide certification from a RESNET-certified HERS rater showing the units tested meet or exceed 2012 IECC standards. Builder and/or customer is responsible for the cost of the HERS rating.
H. Units must have equipment installed with a SAVE equipment score of 85 or greater.
I. Builder must include HERS fuel summary report.
J. Builder must include 2012 IECC Code Checklist.
K. Submit one rebate claim form per qualifying building with 3 units or more. Additional buildings on the same property must be submitted separately.
L. This program is effective January 1, 2014 through December 31, 2014 for any properties started during this time period.
M. Rebate Claim Forms must be submitted within 90 days of property's completion date.
N. Total tonnage is the sum of each unit in the system.
O. One geothermal rebate per well field. Additional units drawing from the well field are eligible for 50% of the geothermal unit rebate. AHRI certificate(s) must be attached.
P. Furnace must be > = 92 AFUE; air conditioners must be > = 13 SEER.
Q. Air source heat pumps must meet SEER/EER 14.5/12 and HSPF of 8.2 or better.
R. Mini-split heat pumps must meet SEER/EER 15/12 and HSPF of 8.5 or better.
S. To qualify for a rebate, all equipment must be listed in the AHRI Directory (ahridirectory.org) and SAVE installed.
