RATE DESIGNATION: 060
CLASS OF SERVICE: SMALL INTERRUPTIBLE GAS TRANSPORTATION
SERVICE AREA: ALL MINNESOTA SERVICE AREA

Applicable To: Interruptible Gas Rate Schedules 020

Availability: Available to new or existing customers for transportation of customer supplied gas delivered by a third party to the Company's system, and which the Company will deliver through its distribution system to the Customer's premises through a single meter and at a single point of delivery. This service is available to customers served on the above rate schedules, subject to available capacity in Company's existing mains and the customer's acquisition of an End-User Balancing Agreement with the Company's pipeline supplier for the delivery of the contracted quantity of gas, to the Company's gas distribution system. Customer contracts will be required that will designate maximum daily delivery, rate schedule, losses, and additional terms and conditions.

Curtailment Priority: Gas is subject to curtailment for the protection of gas having higher service priority.

Net Rate:

Basic Service: $3.28767 per day*

Administration and Dispatching Charge: $3.28767 per day per separate metering point*

Therm Charge: $0.04619/Therm

* For Comparison Only: Basic Service $100.00/month and Administration and Dispatching Charge $100.00/month per separate metering point

Flexible Charge: Specific price to be set for a Customer by the Company, but not less than $0.00600 per therm and not more than $0.08638 per therm. The Company will provide two days' written notice of rate changes, unless shorter notice is provided by contract. Customer will pay the non-flexible therm charge unless placed on the flexible rate. The flexible rate shall apply at Customer request or at any time a Customer uses, for price reasons, an alternate energy supply or service from a supplier not regulated by the Minnesota Public Utilities Commission. Application of the flexible rate shall continue for a minimum period of one year. Customer shall give the Company two months' written notice of intent to change to nonflexible service. In no case shall the flexible rate apply to a customer who is connected to a district heating facility as of June 1, 1987 or who utilizes indigenous biomass energy supplies. Any Customer changing from a flexible rate to a nonflexible rate will pay all costs incurred by the Company due to the change.

Minimum Monthly Bill: The minimum billing shall be the basic service charge, the administration and dispatching charge, any pipeline charges related to actions of the customer, and any balancing charges.

Customer Supplied Gas: Arrangements for gas delivered to the Company's system shall be the responsibility of the Customer. Gas delivered to the Company's system shall conform to all of the General Terms and Conditions of this tariff.

Conservation Improvement Program Cost Recovery Adjustment: Rider CIP is applicable hereto.

Gas Affordability Service Program Cost Recovery Adjustment: Rider GAP is applicable hereto.

RATE DESIGNATION: 060
CLASS OF SERVICE: SMALL INTERRUPTIBLE GAS TRANSPORTATION
SERVICE AREA: ALL MINNESOTA SERVICE AREA

Balancing Gas Supplies: The Company will not be responsible for balancing differences between the transportation customer's nominations and actual daily receipts of gas. All customers wishing to receive service under this Rider must have an End-User Balancing Agreement in effect with the interstate pipeline delivering gas for transportation over the Company's system to the customer's receipt point. Gas delivered to the Company's system by a customer not having an End-User Balancing Agreement in effect will be considered Unauthorized Gas and subject to a charge of $10.00 per MMBtu.

Other Provisions: All provisions, except those specifying the net rate, of rate schedule 020 shall apply.

General Terms and Conditions: As defined in tariffs of "GENERAL TERMS AND CONDITIONS FOR GAS TRANSPORTATION".
