Rider REP – Renewable Energy Partners

N

Availability:

This Rider is available to any Non-Residential General Service and Large General Service Customer that chooses to purchase all or a portion of its electricity requirements from renewable energy from a designated resource as outlined below. Availability of this Rider is capped at a total of 150 MW (AC) of existing Customer load.

N

A Customer, which is defined for the purposes of this Rider by tax ID for non-governmental entities or a single unit of government (e.g., municipality, county, school district, etc.) with multiple accounts, may aggregate any of its eligible accounts under a single contract with the Company, up to a maximum number of accounts as determined by the Company on a case-by-case basis. The details regarding aggregation and billing will be addressed in the contract.

A separate contract is required for each Customer, and multiple Customers are not allowed to aggregate loads under a single contract.

Contract Terms and Provisions:

The contract shall not harm (1) other Customers of the Company who are not subject to the contract, or (2) the shareholders of the Company. The contract will include, but is not limited to, the following information:

N

- A. Details about the dedicated renewable resource, including, but not limited to, the following:
 - 1) Project description, equipment type, location and cost;
 - 2) Size in kilowatts (kW) and projected kilowatt-hour (kWh) energy production;
 - 3) Total percentage of anticipated consumption coincident with energy production; and
 - 4) Project timeline.
- B. Contract agreement term.
- C. Renewable resource rate(s) reflecting all costs associated with the dedicated resource including any upfront contributions or administrative charges.
- D. Nameplate capacity and the estimated applicable Midcontinent Independent System Operator ("MISO") accredited capacity value of the dedicated renewable resource.
- E. Provisions to address early termination by either the Company or the Customer.
- F. Provision to address default by either the Company or the Customer in fulfilling obligations under the contract.
- G. Information about the Customer's creditworthiness.

Rate:

A Customer taking service under this Rider will be responsible for all rates, adjustments, and credits specified in the Customer's applicable rate schedule(s) not otherwise addressed in the contract. Additionally, a participating Customer will pay the cost of the dedicated renewable resource, as agreed upon in the contract, and shall receive a bill credit for the renewable energy generated specifically for the Customer by the dedicated renewable resource. Such bill credit shall be determined based on the Energy Credit Value applied to the lesser of the energy generated by the dedicated renewable resource for the Customer or the Customer's actual energy consumption, for each 60-minute interval in the billing period. Any excess generation above a Customer's load for a given 60-minute interval will be provided to non-participating Customers at no cost. Energy Credit Values will be based on the settled market value of the produced energy less any MISO charges established for a MISO pricing node, but in no case shall an hourly Energy Credit value be less than zero. Pricing node to be determined and included in the contract. Capacity valuation may be negotiated on a project-specific basis.

Rider REP – Renewable Energy Partners

N

Renewable Energy Attributes:

Participating Customers will be assigned all renewable energy attributes, including Renewable Energy Credits, regardless of the amount of energy that is used to calculate the participating Customer's energy credit as defined above.

N

Energy purchases under this rider are exempt from fuel cost surcharges and credits.

Minimum Charge:

The minimum charge will consist of charges from the Customer's applicable rate schedule other than as addressed in the contract, plus any charges as defined in the contract.

N

Other Terms and Provisions:

1. Within a reasonable time (30 days) after receiving a Customer request for service under this rider, the Company will begin discussions with the Customer to determine if mutually agreeable terms can be reached with respect to a designated renewable resource.
2. Any Customer electing service under this Rider waives all rights to any billing adjustment arising from a claim that the bill for the Customer's service would be cheaper under any alternative rate schedule for any period of time, including any rights under IAC 199 – 20.
3. The Company may limit participation in the program based on a Customer's account standing bill payment and collection history.
4. Service under this Rider may be limited at the sole discretion of the Company.
