Natural gas rates for residential customers

The Public Service Commission of Wisconsin has approved new natural gas base rates effective Jan. 1, 2017. Your bill shows separate charges for distribution (what we charge for delivering natural gas) and gas supply (what we pay to acquire natural gas). The gas supply base rate is adjusted monthly through the gas supply market adjustment, which is approved by the PSCW.

For a typical residential natural gas customer, the 7.6% rate increase is expected to increase the monthly bill by approximately \$3.47 per month. Individual bills may vary depending on usage.
