# Natural gas rates for commercial and farm customers

The Public Service Commission of Wisconsin has approved new natural gas base rates effective Jan. 1, 2017. Your bill shows separate charges for distribution (what we charge for delivering natural gas) and gas supply (what we pay to acquire natural gas). The gas supply base rate is adjusted monthly through the gas supply market adjustment, which is approved by the PSCW. The average increase for commercial and industrial customers is 3.3%. Individual bills may vary depending on usage.
