

Meter reading schedule

Keep this meter reading schedule handy so you know when to expect your meter reader. Your meter reader will make every effort to read your meter as scheduled. However, weather conditions, illness, holidays and resource restrictions may cause the read date to change without notice.

To read this chart, find "Next Meter Reading" on your most recent bill. Then, using the chart, locate your next scheduled read date for the appropriate month and scan across that row to find future read dates. **The meter reader may arrive one day before or two days after your scheduled read date.**

Cycle	January	February	March	April	May	June	July	August	September	October	November	December
1	12/30/16	01/31/17	02/28/17	03/31/17	04/28/17	05/31/17	06/30/17	07/31/17	08/31/17	09/29/17	10/31/17	11/30/17

SAFETY REMINDERS

Please ensure your meters are accessible during the four-day read window.

- Keep your **dog restrained** by a leash or chain, caged or secured in another area away from the meter. Utility employees will not step foot on your property if a dog or animal is not clearly restrained.
- Clear the **snow and ice** from your meters – especially natural gas meters – to ensure reliable service and safe operation of your appliances.
- Keep the path to and around the meter **well-lit and clear** of any obstructions.

If your meter reader is unable to enter your property due to any safety hazards, **your meter will not be read and your usage will be estimated.** You can also read your own meter on a monthly basis and submit the read at alliantenergy.com/mymeter.
