

Your residential energy bill explained

1. Account Number

10-digit account number

2. Amount Due

The amount that is due for this month's bill.

3. Due Date

Date your bill amount is due.

4. Message Board

Helpful information about easy ways to manage your account and save energy or money.

5. Contact Us

Phone number, email, website or PO Box if you need to reach us.

6. Energy Usage

Compare your usage this month to the previous 13 months.

7. Degree Days

Energy consumption indicator, based on the average outdoor temperature.

8. Meter Readings

This is the reading obtained either remotely or manually from your meter at the time of billing. An 'estimated' next to either number denotes that the read for that month was estimated.

9. Electric Units Billed (kWh)

The number of electricity units you have used in one reading period.

One kWh is the amount of power to use a 40-watt light bulb for 25 hours.

10. Natural Gas Units Billed (therms)

Measured by volume, CCF (100 cubic feet).

11. Heat Factor Adjustment

The amount of heat in each CCF of gas can vary, so the Heat Factor Adjustment compensates for any differences, and converts units to therms. Billing in therms assures you receive an equal amount of heat from each unit billed.

Account Number **1** 000000600
Bill Date Nov 10, 2018

(See page 2 for details of charges)

Electric energy charges or calculations

1. Energy Charge

Kilowatt hours (kWh) used per billing period. Rate (or price) for energy generation and distribution.

2. Fuel Adjustment

This cost, billed per kWh used, is an additional charge that may be required to accommodate for changes in fuel prices.

3. Statewide Low Income Assistance Fee

Utilities collect this fee and pass it to the State of Wisconsin. It is used to provide energy efficiency and utility bill payment assistance to low-income customers.

Natural gas energy charges or calculations

4. Distribution Charge

This is the cost of maintaining the distribution system, and includes installing, maintaining and repairing gas lines from pipeline to the home or business.

5. Gas Supply Base Rate

This recovers the cost of natural gas itself and the rate is set in a rate case proceeding before the Public Service Commission of Wisconsin.

6. Gas Supply Market Adjustment

The actual cost of natural gas fluctuates daily and this adjusts the "Gas Supply Base Rate" to the actual market price for natural gas.

Energy charges for all customers

7. Customer Charge

The customer charge covers the cost of operations to supply and maintain your utility service. This charge includes items like meters, other equipment, and account administration. The customer charge for each utility service is billed monthly.

8. Tax

This includes state tax and county tax if applicable.

1. Previous Balance (Actual)

This is your budget balance on your account as of the last bill issued.

2. Previous Balance (Budget)

This is the budget balance on your account before this bill was issued.

3. Payment Received

This is the amount you paid with the last billing cycle. This payment might be more or less than the account balance.

4. Balance Forward

This is the difference between the Previous Balance and Payment Received.

5. Current Charges (Actual)

These are the current costs for this billing cycle and would be the total due if you weren't enrolled in *Budget Billing*.

6. Current Charges (Budget)

This amount is the monthly budgeted bill, plus or minus any overpayments, underpayments, or credits. It is budgeted to be the average of the most recent year of usage history.

Your *Budget Billing* energy bill explained

Customers who participate in *Budget Billing* have additional features on their bills.
