

COMMERCIAL/COMMUNITY/MULTIFAMILY ELECTRIC VEHICLE (EV) CHARGING STATION REBATE CLAIM FORM

INSTRUCTIONS: Fill out form completely and sign. **Attach required documentation: itemized receipt(s) or invoice(s), and a W-9 form.** Failure to complete the form and provide documentation will result in claim being sent back or denied. For the terms and conditions of this rebate program, please see page 2 of this form.

Multifamily housing buildings have common spaces and are either three vertically-stacked units or have four or more units. Buildings with three or fewer collinear units are defined as single family. This rebate is for Level 2 EV charging stations installed in common spaces only; single family buildings may be eligible for residential rebates.

For general information about electric vehicles and charging visit alliantenergy.com/ev. For more information about the residential electric vehicle (EV) charging station rebate call the Alliant Energy Renewable Energy Hotline at 1-800-972-5325.

To be eligible for this rebate, you must:

- Be a non-residential Alliant Energy electric customer whose account is in good standing.
- Have your Level 2 EV charging station connected to an electric meter billed under a non-residential Alliant Energy electric service rate.
- Purchase and install a Level 2 EV charging station between January 1, 2020 and December 31, 2020, available for employee, tenant and/or guest use.
- Program participation requires consent for random onsite audits and review of usage data.

REQUIRED LEVEL 2 ELECTRIC VEHICLE (EV) CHARGING STATION INFORMATION - UP TO \$1,500 REBATE					
Please complete the following section about your installed electric vehicle charging station and associated installation costs. Rebate only applies to the cost of the charging equipment. Accurate installation cost information will help Alliant Energy better understand typical installation costs.					
EV Charging Station Manufacturer		EV Charging Station Model		Where Purchased	
				Equipment Cost \$	
Charging Station Information			Who will be using the Charging Stations (check all that apply)		
<input type="checkbox"/> Dual Prong <input type="checkbox"/> Single Prong			<input type="checkbox"/> Employees <input type="checkbox"/> Guests <input type="checkbox"/> Tenants		
Purchase Date		Installation Date		Installer Name/Company	
				Installation Cost \$	
The rebated amount for the electric vehicle charging station will be the lesser of: (1) \$500 for single-port wall or pedestal unit (charges one car), (2) \$1,000 for a dual-port unit (charges two cars), (3) \$1,500 for a dual-port (networked*) unit (charges two cars), or (4) the electric vehicle charging station equipment cost listed on the included receipt, less shipping, handling, sales tax and any accessories to the unit itself.					
If more than two rebates are requested per location, prior approval documentation must accompany this form.					
*A Networked Level 2 EV Charging Station, sometimes referred to as a "smart" charging station, must be capable of connecting to the internet via WiFi or cellular connection for app or web-based charging control.

Additional information continued

This Electric Vehicle Charging Station Rebate covers the lesser of: (1) \$500 for single-port wall or pedestal unit (charges one car), (2) \$1,000 for a dual-port unit (charges two cars), (3) \$1,500 for a dual-port (networked) unit (charges two cars), or (4) the electric vehicle charging station equipment cost listed on the included receipt, less shipping, handling, sales tax and any accessories to the charging unit itself. Charging stations must be installed at a business whose electric service meter is billed under an Alliant Energy non-residential electric rate. Alliant Energy highly recommends that all Level 2 EV charging stations be installed by a licensed electrician and in accordance with local municipal codes and permitting procedures, as mentioned in more detail in the terms and conditions listed below. Alliant Energy is offering a limited number of these rebates, so availability is subject to overall participation levels. Further, Alliant Energy reserves the right to cancel or modify this rebate program at any time in its sole discretion.

Electric Vehicle Charging Station Eligibility Restrictions:

- Only commercial customers whose non-residential electric service accounts are in good standing are eligible for the rebate.
- Rebate is available only for Level 2 (240 volt) electric vehicle charging stations.
- This rebate applies to new Level 2 electric vehicle charging stations purchased and installed between January 1, 2020 and December 31, 2020.
- Used, refurbished or rented electric vehicle charging stations are excluded from this rebate.
- Electric vehicle charging stations gifted or won as part of a raffle or giveaway are not included.
- Projects must demonstrate permanency.
- Rebate application must be USPS postmarked on or before December 31, 2020 to qualify for the rebate. Applications submitted after the deadline will not be accepted.
- No more than two rebates may be paid to each Alliant Energy customer, without prior approval.
- All city, county, or state government, property owner or homeowner’s association, rules, codes and regulations must be complied with during installation of the EV charging station.
- All necessary permits must be obtained prior to installation.

Failure to comply with any of the foregoing requirements could result in denial of any rebate.

Alliant Energy reserves the right to audit your installation.

Alliant Energy reserves the right to randomly select your building for an onsite audit to verify the installation of the rebated electric vehicle charging equipment installed at your business. You hereby consent to such an audit, and you agree to grant Alliant Energy access to your premises or property, to the extent reasonably necessary to conduct such an audit. If your installation is selected for a field audit, you will be contacted by an Alliant Energy representative to schedule an appointment. By signing and submitting this Rebate Claim Form, you agree to provide an Alliant Energy representative reasonable access to the installation site during normal business hours or as otherwise agreed between you and Alliant Energy. If the field audit discovers that the equipment has not been installed as indicated on the rebate claim form, then the customer’s rebate may be rescinded.

Alliant Energy is not responsible for the failure of installed equipment.

Alliant Energy is not a party to any sales transaction between you and the manufacturer and/or dealer. Alliant Energy’s liability and responsibility in connection with the Electric Vehicle Charging Station Rebate Program shall be strictly limited to the making of certain rebate payments for eligible equipment, and Alliant Energy does not make, will not provide and specifically disclaims any and all representations, warranties, covenants or guaranties whatsoever, express or implied, in connection with the electric vehicle charging station or the program itself, including, without limitation, the implied warranties of merchantability and fitness for a particular purpose. Alliant Energy shall in no way be liable or responsible for any equipment installed by, or for any act or omission of, any other entity or individual, including, without limitation, the equipment manufacturer or any electrician, technician, or other service provider.

Alliant Energy reserves the right to contact you as a part of its EV market research and program evaluation activities.

Customers participating in the Electric Vehicle Charging Station Rebate Program may be contacted to participate in Alliant Energy’s study of EV charging practices, to better understand EV drivers’ charging practices and preferences, improve EV services, and encourage greater EV deployment.

CUSTOMER SIGNATURE AND CERTIFICATION

I certify that I have purchased the equipment described in this form and that it has been installed at the service address indicated. I agree to the terms and conditions associated with this form.

Customer Signature	Date
---------------------------	------

Submitting your form:

- Fill out the Commercial/Community/Multifamily EV Charging Station Rebate Claim Form completely.
- Attach a copy of the itemized sales receipt or invoice for your Level 2 electric vehicle charging station.
- Attach a copy of the installation invoice for the Level 2 electric vehicle charging station.
- Attach a completed W-9 form.
- Rebate application must be postmarked on or before December 31, 2020 to qualify for the rebate. Applications submitted after the deadline will not be accepted.

Mail completed forms to:

Alliant Energy
 GO8 EV Rebate
 P.O. Box 351
 Cedar Rapids, IA 52406-0351

This program is administered by Alliant Energy. Alliant Energy is the trade name of Interstate Power and Light Company (IPL) and Wisconsin Power and Light Company (WPL). The utility providing the rebates is Interstate Power and Light Company (IPL) and Wisconsin Power and Light Company (WPL), Alliant Energy companies, hereinafter referred to as Alliant Energy.

Please allow eight weeks for your rebate to be processed and for payment to be issued.
