- 11 Richland (130 MW)** Sac County, IA
- 12 Kossuth (150 MW)** Kossuth County, IA

* Not shown on map; non-utility owned project generating energy under contract with a third party.

Alliant Energy's first owned wind farm went into operation in 2008, and our company has been purchasing wind for more than 20 years. In addition to owned wind farms, Alliant Energy has numerous wind power purchase agreements (PPAs). In a typical year, our company buys more than 600 MW of wind from others through PPAs.

Great Western and Forward Wind are partially-owned and MWs reflect that.
