WI & IA COMMERCIAL, INDUSTRIAL, MULTI-FAMILY NEW CONSTRUCTION
SERVICE APPLICATION AND AGREEMENT

TERMS AND CONDITIONS FOR

◀This box auto fills when the Business Name is entered in the
Owner Information section on page 1.

1. The undersigned applicant(s) (the Customer) understands and agree that prior to installation of underground electric lines or gas piping, the owner of the property for which utility service is sought (the Landowner) shall have established the final grade of the route and that after installation of the line the grade shall not be increased or decreased more than 6" without the approval of Alliant Energy (the Company). If the Customer is not the Landowner, the Customer is responsible for obtaining such agreement in writing from the Landowner and providing same to the Company at no expense to the Company.
2. Easement: Right of Access
 - a. The Customer, if also the Landowner, grants to the Company the right to clear for installation and maintenance of its overhead and/or underground electric line or gas piping and to use any necessary equipment in, on and across the above described lands along highways and along fence lines thereon, and to extend such lines along or near property lines of such premises as may reasonably be necessary to extend service to future applicants for such service, and to permit the attachment of communication lines and equipment owned by others. If applicant is not the Landowner, the applicant is responsible for obtaining such agreement in writing from the Landowner and providing same to the Company at no expense to the Company unless same has previously been provided to the Company.
 - b. The Customer, jointly with other applicants on the same extension shall, without cost to the Company, maintain a right-of-way, which the Company has the right to clear, adequate for the extension and along a route approved by the Company.
 - c. If requested by the Company, the Customer/Landowner shall grant to the Company an easement in recordable form conveying the rights and privileges in (a) and (b) above. If applicant is not the Landowner, the applicant is responsible for obtaining the easement in writing from the Landowner and to provide the same to the Company at no expense to the Company.
3. IOWA ONLY - The Customer does hereby certify that the structure served by the gas and/or electric service line, if completed after April 1, 1984, and if intended primarily for human occupancy, conforms to the energy conservation requirements adopted under the Iowa Administrative Code Sections 661-303.2 (103A) and 661-303.3 (103A).
4. INDEMNIFICATION. The Customer shall hold the Company harmless for any damage to persons or property arising out of the use upon the Customer site of the electric service or gas service furnished to it by the Company. Nothing herein contained shall be construed as relieving the Company from any liability to its own employees while upon the site of the Customer in the performance of their duty and by the direction of the Company, or as relieving the Company from any liability to the Customer due to the Company's act of negligence.
5. This agreement shall become effective when acceptance of the application has been signed on behalf of the Company.
6. The Company agrees to return any deposit, with interest, according to the rules and regulations of the applicable State Regulatory Authority.
7. WISCONSIN ONLY - If the property being serviced pursuant to this application is also used as a personal residence, the Customer acknowledges the right to make written request to the Company that the County Department of Health and Social Services be notified at least 5 calendar days prior to a scheduled disconnection of service for rule violation or non-payment.
8. WISCONSIN ONLY - Failure to Consume Natural Gas
 - a. The Customer agrees to begin consuming natural gas within eleven months of installation of the service lateral. If the Customer is not consuming gas by that time, the Customer agrees to pay each month the applicable Customer Charge on file with the State Regulatory Authority.
 - b. If the Customer does not begin consuming gas within 10 years of the installation of the service lateral, the service pipe may be removed unless the Customer agrees to continue to pay each month the applicable Customer Charge on file with the State Regulatory Authority.
 - c. After the service lateral has been installed, the Customer may not avoid obligations under these agreements by requesting discontinuance of service or by requesting service under a different rate schedule.
9. The Customer is responsible for notifying the Company of contaminated oil (soil, groundwater, etc.) that may be present on the premises prior to Company commencing installation or extension of service.
10. If contaminated media is encountered during the installation or extension of service, the Company shall terminate the installation or extension of service and notify the customer. The customer is responsible for reporting the discovery of contamination to the appropriate agencies.
11. The Company reserves the right to consider alternative service routes, if necessary, to avoid contaminated media.
12. The Customer, or Landowner, is responsible for management of any contaminated media generated during the installation of service. The Customer may be held liable for additional costs incurred by the Company if contaminated media is encountered during the installation of service.
13. The Customer agrees that the Company may dig, trench, or bore on the customer's property located at the above address for the installation of utility service. Utility rates are based on rough grade construction meaning the Company will backfill and smooth over any excavations that the Company performs. **Final restoration, grass seeding, watering and mowing are the Customer's responsibilities.**

Prior to digging, trenching, or boring, the company will identify the route of the proposed excavation. The Company will notify other utility owners to facilitate the marking of existing underground utilities, including electric telephone and cable TV.

The Customer agrees to physically mark the location of any and all customer owned obstacles that lie underground within ten feet of proposed excavation. Such obstacles include, but are not limited to, septic and sewer systems, buried wires for out-buildings or decorative lighting, and LP gas lines. The Customer shall mark the location of all of these obstacles with stakes or flags or by painting the ground. **The Customer hereby accepts any and all responsibility for damage to, or damage done by striking, any such underground obstacle the Customer fails to mark or marks incorrectly**

The Customer applies to the Company for service under rate schedule(s) _____ and requests that the Company extend its distribution facilities as necessary to provide such service in accordance with its rate schedules, rules and regulations on file with the State Regulatory Authority. The Company agrees to furnish, and the Customer agrees to take and pay for utility service in accordance with provisions and rates approved by the State Regulatory Authority; subject to all applicable rules of the Company on file with the State Regulatory Authority including, but not limited to, terms and conditions stated above; until such time as the Customer discontinues service or elects to make a written application for service under a different schedule. Such election, however, may not be exercised within a one-year period from the date of this application. The persons signed below are jointly and separately liable for utility charges at the service address above. This agreement obligates the Customer's heirs, successors and assignees.
