

Alliant Energy is developing a wind energy project in southwest Marathon County, Wisconsin. Wind energy allows Alliant Energy to deliver safe, reliable, and affordable energy to customers without emitting greenhouse gases. This proposed project is expected to generate enough clean, low-cost energy to power nearly 45,000 homes annually. This project will provide significant economic benefits to the community through the total capital investment, construction and operations jobs created, landowner leases and aid payments generated.

Location: Towns of Day, McMillan, Eau Pleine, Cleveland, Green Valley, and Brighton

Typical Development Timeline: 3-6 years

Typical Construction Timeline: 1 year

Estimated Size: 150 MW

Estimated Number of Turbines: 28-38

Annual Estimated Production: 450,000 MWh

Homes Powered: Approximately 45,000 annually

- Township/s = \$250,000* annually
- County = \$500,000* annually

*Project facts are determined by the size of the project. These are subject to change as the project progresses.

The map shows the Stratford Public Schools district outlined in red. The district is bounded by Route 13 to the west, Route 97 to the east, and Route 153 to the north. The area includes the towns of Unity, Stratford, Rozellville, and Marshfield. Major roads shown include Route 13, Route 97, Route 98, and Route 153.
