

SUSTAINABLE DEVELOPMENT GOALS

Connecting our values to the sustainable development goals

In 2015, the United Nations adopted [2030 Agenda for Sustainable Development](#) as a shared vision to achieve peace and prosperity for people and the planet, both now and into the future. This plan provides 17 sustainable development goals (SDGs) to guide global efforts and targets to track progress for countries. Our company recognizes that businesses can also connect to the SDGs and help work toward this worldwide vision.

At Alliant Energy, our purpose is to serve customers and build stronger communities. Our mission is to deliver the energy solutions and exceptional service our customers and communities count on – safely, efficiently and responsibly. **Providing affordable and clean energy (SDG7) for our customers is considered in our company’s long-term strategy.**

We share examples of how our actions align with SDG7, and many other SDGs, to support a better and more responsible future in our [Corporate Responsibility Report](#).

Our actions and impact opportunities

Six values shape everything we do.

Live safety. Everyone. Always.

Our first priority is that nobody gets hurt.

Do the right thing.

We keep our promises and conduct our business openly and honestly.

Care for others.

Together we create a workplace where people feel like they belong and can use their unique backgrounds, talents and perspectives to their fullest potential.

Make things better.

We partner with our customers and communities to solve problems, create opportunities and help make life better.

Act for tomorrow.

We use resources wisely, care for the environment and continuously improve ourselves and our company.

Think beyond. Be bold.

We create and embrace change, innovate beyond current practices and use our curiosity to find new solutions.

Our values and core business operations provide opportunities for us to directly align with the goals of the following SDGs.

We developed our SDG map based on a review of the **SDG global indicator framework**. The map aligns the SDGs to our values. Our values serve as the foundation of our culture through which employees accomplish our purpose and mission. Our company's greatest opportunities to impact progress toward achieving the SDGs include direct actions integral to our strategy and operations. In addition, there are many ways we support the SDGs through our charitable giving and volunteer efforts.
