
RATE DESIGNATION: 902
CLASS OF SERVICE: COGENERATION AND SMALL POWER PRODUCERS –
PURCHASE AND SALE BILLING SCHEDULE
SERVICE AREA: ALL MINNESOTA SERVICE AREA

Availability: Applicable to any customer with a qualifying facility of less than 40 kW capacity who receives service from the Company on an appropriate standard non-time of day retail rate for electric service. Service will be contracted for a minimum period of twelve months.

Meter Charge: \$0.13315 per day* (For Single Phase Service)

Power and/or Energy Delivered to Customer: Power and energy delivered to the customer at the same location shall be billed on the appropriate retail rate schedule for the class of customer served.

Power and/or Energy Delivered to Company: For all power and energy delivered to the Company, the Company will pay the following rates:

All kWh of energy: 4.400¢ per kWh/day

Firm Power Capacity
Cost Component per kWh: 0.697¢ per kWh/day

* For Comparison Only: Meter Charge \$4.05/month

Firm Power Definition: To qualify as firm power delivery under this schedule, the customer shall have supplied power to the Company with not less than a 65 percent on-peak capacity factor. The on-peak capacity factor shall be determined as the average on-peak metered capacity (on-peak kW hrs divided by on-peak hours) divided by the highest 15 minute metered on-peak kW capacity for the same period.

Energy Supply Adjustment: Rider 1M is applicable to energy payments from customer.

Metering: Separate metering will be required to measure power and/or energy delivered to the Company.

Interconnection Charges: The costs of interconnecting a qualifying facility and any costs associated with subsequent necessary modifications are the responsibility of the customer and the Company will assess the customer for all appropriate charges incurred by the Company.

Rules and Regulations: Service hereunder is subject to the provisions of the Company's Electric Service Standards.
